## PROFESSIONAL EXPERIENCE

### Software Engineer Intern

2023

*Foqal*

- Collaborated on the redesign/modernization of the client portal using CSS and Bootstrap
- Debugged and configured Slate text editor to maintain proper formatting and avoid overflow when handling lengthy text inputs
- Replaced inline styles with class-based styling to eliminate Content Security Policy violations
- Led a training initiative on React's useRef hook to familiarize the team with a new codebase
- Engaged in Agile/Scrum workflow with sprints, planning poker, stand-ups, and retrospectives

### Marketing Manager

2021 - 2022

*NK Agency*

- Directed the planning and execution of campaign strategies in collaboration with stakeholders and cross-functional teams
- Utilized social media analytics tools and paid media to optimize content and elevate client's online visibility on TikTok, Instagram, and Facebook
- Developed interactive digital assets and mobilized strategic partnerships to increase client's engagement rate and achieve a 122% growth in followers

## TECHNICAL PROJECTS

### Online dating and geosocial networking application.

[GitHub](#)

- Leveraged TDD to engineer a backend solution featuring a RESTful API and integration with AWS S3 for cost-efficient, scalable, and secure image storage
- Implemented server-side validation using JSON Schema to ensure data integrity and enable seamless client-side error handling
- Utilized a geocoding API to provide location-based matching

### Employment marketplace for job seekers and employers.

[Live Demo](#) | [GitHub](#)

- Employed middleware and JSON Web Tokens to handle user authentication
- Implemented live search functionality with Lodash debounce
- Accelerated the development process using TailwindCSS to quickly build consistent and responsive interfaces

## EDUCATION

### Rithm School

2023

Full Stack Web Development

### California State University, Long Beach

2014 - 2016

Bachelor of Arts in English
